VPC Group inc. makes carpet cushion to enhance the durability of your carpet, allowing your carpet to sustain its new look for longer.

Installing our carpet cushion will allow your carpet to feel luxurious with every step that you take. Your feet will feel that our **ECOBond™** lines present the physical sensation of comfort and luxury.

Our **ECObond™** collections portray our commitment to manufacturing the most innovative, technically advanced carpet cushion.

VPC Group inc. are dedicated to designing our carpet cushion choices for today's environmentally conscious consumer. All our products are made with a "Zero CFC Process", passes the CRI green label for air quality standard and are made with 100% recycled urethane foam scrap trimmings.

We serve carpet cushion distributors and dealers nationally as we operate facilities in both eastern and western Canada. Through our manufacturing process, we ensure that only quality raw materials go into our flexible foam products, creating superior carpet cushion.

**ECOBond™** carpet cushion sets the standard, and is a tribute to what our customers demand in quality and performance from a VPC Group inc. product.
